FOR IMMEDIATE RELEASE

Press-release

St. Petersburg, Russia. 11th November 2008

Java Version of Speereo™ Voice Translator released.

Java version of Speereo™ Voice Translator is out! Now Speereo Voice translator works on Java phones.

Speereo Voice Translator is an easy-to-use but very powerful and extremely useful product for business & leisure travelers and foreign language learners. It supports bi-directional translation for 16 languages: English, Spanish, German, French, Portuguese, Italian, Finnish, Polish, Danish, Russian, Turkish, formal Arabic, Chinese Simplified, Chinese Traditional, Korean, and Japanese.

This multi-purpose application includes approximately 4000 phrases (in each language) for almost every situation a traveler could face - including business, technical, medical and legal terms, phrases, idioms and some slang. These phrases are arranged in 16 main categories and 87 sub-categories by subject, such as:
Travel / Useful / City / Food / Shopping / Health / Entertainment.

Supported phones* (Brand + Screen Size):

Motorola 176 x 220 & 240x320

Nokia 240x320

Samsung 176x220, 220x176 Horizontal, 240x320 & 320x240 Horizontal

Sony Ericsson 176x220 & 240x320

* Phone must support Java & GPRS data transfer

Benefits:

- Complex solution for business travelers
- Support of Asian languages
- **Java version** can be installed on most mobile phones
- Multilanguage interface and documentation for 16 languages

Additional services include:

- Online World Weather
- Online Currency Rates & Currency Converter
- Travel Guides
- Size & Measure Converter.
