FOR IMMEDIATE RELEASE

**Press-release**

St. Petersburg, Russia. 26th November 2009

**Speereo Voice Launcher on sale in Ovi Store**

We are pleased to announce that the Launcher is now available in Ovi Store worldwide and is on sale till 2010. The price is 50% off, Speereo Voice Launcher now costs 5 Euro (MSRP 10 Euro).

Speereo Voice Launcher allows users to start applications, web pages and documents (files) with own voice commands. To get the point of this utility, one has to recall how convenient it is to double click an icon instead of navigating through disks and folders each time you need to launch an application on your Desktop.

By using icons instead of paths you save seconds. Depending on how often you use different applications these seconds quickly become minutes during the day which turn to hours per year. In short, voice commands can partially replace graphical interface just like icons have replaced the command line years ago.

Whether you are time-conscious type of person or just like to optimize your mobile workflow, Speereo Voice Launcher is the way to go. So, why not make yourself a small Christmas gift and obtain an inexpensive solution to make your phone a bit better?
