

## Speereo Software UK released new version of Speereo Voice Translator

**Saint-Petersburg, Russia – June 8, 2007**

Speereo Software UK announced today that it has released Speereo Voice Translator (SVT) 3.7. This application is available for Symbian S60 3<sup>rd</sup> Edition, UIQ v3.0 and Windows Mobile 5.0 Pocket and Smartphone Editions.

SVT is a phrase book, which includes about 4,000 most commonly used phrases including business, technical, medical and legal terms, colloquial phrases, idioms, and slang. Once you select a proper phrase in one of the provided 14 Asian and European languages (English, Chinese Simplified and Traditional, German, French, Italian, Korean, Portugal, Japanese, Spanish, Russian, Turkish, Finnish and formal Arabic), Speereo Voice Translator immediately reads back the same phrase in the other language.

SVT 3.7 contains new languages such as formal Arabic and Finnish and new services:

World Clock, Currency Calculator, World Weather, which are extremely necessary for the travelers.

- World Clock lets you know the current time all over the world from any place of your location. If you have to travel a lot or you communicate with the citizens of foreign countries this option will be really useful.
- Currency Calculator: no matter which country you are going to visit for business or travel purpose you can always have the actual information about the rate of exchange. Simply fill in the field with the sum you need to convert, choose currency you need to get and see the result.
- World Weather: using this service traveler can check the online forecast and current weather in the main cities in the world.

Speereo Software also offers more than 190 City Travel Guides so that every tourist could choose the necessary one. Travel Guide will help to find out more about the city that traveler is going to visit. Saint-Petersburg Travel Guide is embedded in the Speereo Voice Translator, you can use it for free even during the trial period. SVT has got a necessary certification approval.

It is possible for users to install SVT into both the main storage and memory stick.
