

## **Speereo launches Voice Translator for Series 60 smartphones v.1.0.1**

**St. Petersburg, Russia – October 25, 2005** - Speereo Software has launched new version of Speereo Voice Translator. This is a new improved version of popular speech product for Symbian operated smartphones.

Once the user selects the phrase in one of 8 languages (English, Spanish, German, French, Italian, Russian, Chinese and Japanese), Speereo Voice Translator immediately reads back the same phrase in the other language. Now it has capability of bidirectional translation in 28 language pairs.

About 4,000 most commonly used phrases, business, technical, medical, and legal terms, conversational phrases, idioms, and some slang are arranged in 16 main categories and 87 subcategories by subject, such as Travel, Useful, City, Buy Food, Shopping, Health and Entertainment.

The customers will enjoy the best world travel guides on their smart phones! Speereo Voice Translator has been enhanced by the Columbus Travel Guides on every country and many cities, which had been especially adapted for Speereo Voice Translator. Columbus Travel Guides is an invaluable source of comprehensive and detailed information for countries and cities worldwide. Now, wherever going, with Speereo Voice Translator powered by Columbus Travel Guides the customers will have at hand all useful information on the place of their visit, including sights, hotels, restaurants etc.

Moreover, the user can get free updates of actual weather in any city included in the used guides as well as the nearest time weather forecasts (GPRS connection is needed).

In this version the reported bugs with Nokia 6630, 6680, 6681, 6682 were fixed.

### **About Speereo Software UK, Ltd.**

Speereo Software is a British IT company involved in the development of proprietary speech technologies. Speereo Software has brought together engineers, mathematicians, and programmers experienced in the area of speech processing. Currently we employ 98 people in the company. Now the work on the speech recognition technology embodies 150 person-years. Thus far R&D has been financed internally by revenue generated from IT consulting.
